ENGLISH TRANSLATION

“May Saraswati, the destroyer of our ignorance, protect us. She, who is fair like the Kunda flower, like the moon, the snow and the necklaces of pearls, who is dressed in pure white clothes and who is seated on a white lotus, her hand playing the veena and to whom hymns are sung by the Gods, even Brahma, Vishnu and Shankar. Oh Goddess of knowledge, remove the ignorance completely from our minds.”

CYBER BULLYING

Cyber bullying is one of the common cyber threats being faced by children and young people. Though cyber bullying can impact anyone yet due to limited understanding about cyber threats, children become easy victims of cyber bullying.

Cyber bullying means using internet or mobile technology to intentionally harass or bully someone by sending rude, mean or hurtful messages, comments and images/videos.

A cyber bully can use text messages, emails, social media platforms, web pages, chat rooms, etc. to bully others.

Let's discuss how can you protect yourself from becoming a victim of cyber bullying.

- Don't accept friend requests from unknown people on social media platforms.
- Don't share your personal information like date of birth, address, and phone number on social media or other online platforms.
- Remember what you post online remains there, so it is important to be careful and not to share your phone number and other personal details in comments or posts on social media platforms.
- Never install unwanted software and Apps like dating App, online games, etc. from unknown sources. You should be very careful while chatting in the chat rooms. Never share personal details in the chat room and limit your identity.
- If you feel hurt after reading a post from a friend or a stranger, don't react with aggressive reply. If you are repeatedly getting such messages/posts, please inform your parents or elders immediately so that they can support you.
- Also, please remember that as a good netizen you should never share mean comments or hurtful messages or embarrassing pictures/videos online.

What can you do if you are a victim of cyber bullying?

If you feel that you are a victim of cyber bullying, please inform your elders so that they can intervene and support you.

Following suggestions can be helpful in managing the situations.

- Inform your parents/elders immediately.
- Block the Bully.

Save posts/messages that were used against you. Such messages/posts can be used as evidence, if in case a legal action has to be taken.

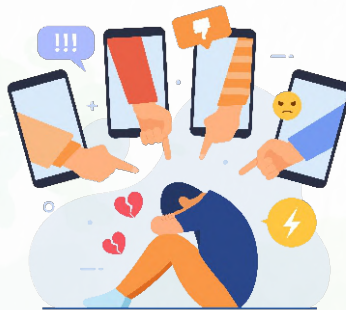

"Think before you type because nothing goes away once posted online."

CYBER BULLYING

Tips for being safe online:

- Practice safe Browsing: One careless click could expose personal data or infect your device with malware.
- Make Sure Your Internet Connection is Secure: When you go online in a public place, by using a public Wi-Fi connection, you have no direct control over its security. Make sure your device is secure, wait for a better time (i.e., until you're able to connect to a secure Wi-Fi network) before providing information like your bank account number.
- Be Careful What You Download: A top goal of cyber criminals is to trick you into downloading malware-programs or apps that carry malware or try to steal information.
- Choose Strong Passwords: A strong password is one that is unique and complex - at least 15 characters long, mixing letters, numbers and special characters.
- Keep Your Antivirus Program Up to Date.
- Be aware of using social media. Many social networks require users to be at least 13 years of age, but some allow children to sign up with parent's permission.
- There are many risks that come with social accounts, but stalking and bullying are real dangerous that can haunt kids online and offline. Publicly broadcasting your location is not the safest thing to do. To deter stalkers, disable location services on your phone and apps.
- Be aware of email scams and suspicious links.
- Know When to Shut off: The Web needn't take up all hours of our free time. Learn when it's healthy to walk away and leave the computer alone.
- Keep Your Privacy Settings on.

Marketers love to know all about you, and so do hackers. Both can learn a lot from your browsing and social media usage. Make sure you have enabled these privacy safeguards, and keep them enabled.

HINDI PRAYERS

इतनी शक्ति हमें.....

इतनी शक्ति हमें देना दाता,
मन का विश्वास कमजोर हो ना
हम चले नेक रस्ते पे हमसे, भूलकर भी कोई भूल हो ना ॥

दूर अज्ञान के हो अंधेरे, तू हमें ज्ञान की रोशनी दे
हर बुराई से बचते रहें हम, जितनी भी दे भली जिन्दगी दे
बैर हो ना किसी का किसी से, भावना मन मे बदले की हो ना
हम चले नेक रस्ते पे हमसे, भूलकर भी कोई भूल हो ना ॥

हम ना सोचें हमें क्या मिला है,
हम यह सोचे किया क्या है अर्पण
फूल खुशियों के बाँटे सभी को,
सबका जीवन ही बन जाए मधुवन ।
अपनी कल्याण का जल तू बहा के,
कर दे पावन हर मन का कौना ।
हम चले नेक रस्ते पे हमसे, भूलकर भी कोई भूल हो ना ॥

तुम्ही हो माता पिता

तुम्हीं हो माता पिता तुम्ही हो,
तुम्हीं बंधु सखा तुम्हीं हो ।
तुम्हीं हो साथी तुम्हीं सहारे,
कोई ना अपना सिवा तुम्हारे ।
तुम्हीं हो नैय्या तुम्हीं खेवैय्या,
तुम्हीं हो बंधु सखा तुम्हीं हो ॥
जो खिल सके ना वो फूल हम हैं,
तुम्हारे चरणो की धूल हम हैं ।
दया की दृष्टि सदा रखना,
तुम्हीं हो बंधु सखा तुम्हीं हों ॥

हम को मन की शक्ति देना

हम को मन की शक्ति देना, मन विजय करें
दूसरों की जय से पहले, खुद को जय करें
हम को मन की शक्ति देना

भेदभाव अपने दिल से साफ़ कर सके
दोस्तों से भूल हो तो, माफ़ कर सकें
झूठ से बचे रहें, सच का दम भरे
दूसरों की जय से पहले, खुद को जय करें

हम को मन की शक्ति देना, मन विजय करें
दूसरों की जय से पहले, खुद को जय करे
हम को मन की शक्ति देना

मुश्किलें पड़े तो हम पे इतना कर्म कर,
साथ दे तो धर्म का, चलें तो धर्म पर
खुद पे होंसला रहे, बढी से ना डरें
दूसरों की जय से पहले, खुद को जय करें
हम को मन की शक्ति देना...

A) TIPS FOR STUDENTS:

a) How To Learn Efficiently

Today, everybody is a student. The expansion and updating of knowledge makes all of us life-long students.

Here are a few tips for studying more effectively.

1. Keep yourself physically fit and let your temperament fly high. • Get sufficient sleep as we need about eight hours sleep. • Do vigorous exercise daily for an hour or more. • Take time daily to do something that you genuinely enjoy such as painting, working with tools, music, poetry etc.
2. Have a regular place for studying • Fix up a study table for yourself. Use a chair with a straight backrest. Only keep items which are being used for study on the table to avoid unnecessary overcrowding of table top.
3. Work out a time-schedule and follow it.
4. Set up goals for yourselves to drive your efforts. • Increase motivation by recalling your goals. • Remind yourselves continuously to achieve your short term goals keeping the long term goals at the back of your mind. • Your learning will be inefficient if your goals are not clear.

b) How To Organize Your Time For Learning

If you can learn to manage your time, you acquire lifelong managerial skill. There are four key points in time management.

1. Right Size of Time Unit: Work psychologists tell us that people get their best work done by working intensively for a reasonable period of time, then resting or changing something else to do. Shoveling sand might mean 15 minutes of work and then a pause. For study 60 minutes seems to be a good unit.
2. Right Amount of Time: • Recall your goals and abilities, and decide how much time you wish to assign to each activity. • As a student, 24 hours of study a week is probably more than enough to achieve your academic goals. Increasing study time to 35 or 40 hours does not guarantee better results. In most cases, the opposite may happen • The pay off in studying requires concentration and interest.
3. Right Distribution of Time Units: • Spread out your subjects strategically. Generally, six single hours on consecutive days are better than six consecutive hours on the same day. • Do assigned reading just before the class.
4. Right Sequence Order: • Subjects like Mathematics must be practiced daily. Miss a point and you tend to lag behind. • Study tough demanding subjects when you are at your most alert stage in the day.

B) TIPS FOR PARENTS - Right Parenting

- Involve your children in daily house-hold chores and encourage them to ask questions.
- Encourage your children to take decisions for solving little problems independently and to learn from mistakes.
- This will enable the children to understand that mistakes are a part and parcel of our day to day work.
- Children enjoy different things and we should encourage them to explore these areas.
- All like winning and whenever you play with your children let them win at times so that they experience the pleasure and pride in doing well. Inculcate the concept of a fair game!
- Share your good experiences with them and listen to their fairy tale stories and simple illustrations with interest. It creates wonderful bonding.
- Let your children take measured risks. As a parent, one tends to be overprotective. This is to be avoided at times.
- Let your children explain parts of their lessons or probably their simple ways at solutions to family issues. This will help them develop sequencing of their thoughts and will also make them understand “why” and “why not”.
- If your child is enjoying something and having fun playing (and maybe you are not), let him/her be. The children need to live their age.
- Your children are unique individuals with their own strengths and limitations. Avoid comparisons and give your child the opportunities for developing their potential to the fullest.

“It is hard to fail, but it is worse never to have tried to succeed.”

Parts of Speech

Noun: Name of a person, place, thing, or animal. Nouns are divided into two main groups: Proper noun and common noun. Proper nouns name a particular person, place, thing, or idea and are always capitalized. Common nouns do not name a specific person, place, animal, thing, or idea and are not capitalized. **Examples:**

Proper

Rashtrapati Bhavan
Pooja Rai

Common

building
woman

Proper

India
I.G.I. Airport

Common

country
airport

Pronoun: Replaces a noun and its modifiers, or another pronoun. The element replaced is called the antecedent. There are many types of pronouns. The most important are: personal, impersonal, relative, demonstrative, interrogative, reflexive, indefinite.

Verb: Expresses an action or a stage of being. Action verbs show action. Linking verbs link a word towards the end of a sentence with a word at the beginning of that same sentence. Linking verbs are often a form of the verb "be". Verbs also identify the time or action (i.e. past, future and present). Examples:

Action

walk(walked,will walk)
hit(hit,will hit)
swim(swam,will swim)

Linking

is
are
were

Action

run (ran, will run)
jump (jumped, will jump)

Linking

am
was

Adjective: Describes a noun or a pronoun. Adjectives answer three questions about nouns and pronoun: which one, what kind, or how many?

Example: The tiger's roar was barely audible. The little tiger's roar was barely audible.

Adverb: Describes verbs, adjectives, and other adverbs. It answers five questions: when, where, how, why and to what extent. Adverbs are often formed by adding "ly" to an adjective.

Example: The man who works hard enjoys life fully.

Conjunction: Connects words, phrases, or clauses together. The most common conjunctions are: For, and, nor, but, or, yet and so.

Preposition: Indicates the relationship of a noun or pronoun to another noun or pronoun in a sentence.

Examples: To, into, across, toward, up, down, at, in, on, under, over, before, after, during, for, against, with.

Interjection: A word or phrase used independently to express strong emotion surprise, or to summon attention. Interjections are followed by an exclamation point, or by a comma when the feeling is not so strong.

Examples: Shoot ! I lost my only set of car keys.

"Knowing is not enough; we must apply. Willingness is not enough; we must do."

Punctuation

Grammar

Apostrophe

,

- Use an apostrophe to show ownership or possession.
Example: That elephant's ears are huge.
The kittens' teeth are intimidating.
- Use an apostrophe to show where letters have been left out of the shortened words.
Example: I'll (sha- or wi- have been omitted).
O'clock (of the clock is shortened).
We're (a- has been omitted).

Braces

{ }

- Use the brace to group information together, particularly in note taking.
Example:

{ }	Dogs	}	Are all examples of animals.
	Elephants		
	Cats		
	Pigs		

Asterisk

*

- Use three asterisks centred on a line to denote the omission of one or more paragraphs from a quotation.
- Use an asterisk in a short paper to refer the reader to more information contained at the bottom of the page.

[Brackets]

- Use brackets around material added to someone else's quote.
Example: " We [citizens of India] have nothing to fear but fear itself."

Colon

•
•

- Use a colon to direct attention to an explanation or summary, a series, or a quotation.
Example: They brought many items to the party: Cheese, Salad, Bikaneri Papad and Rasmalai.
- Use a colon to introduce a list, at the end of a salutation, or between numbers used to indicate time.
Example: Dear Ms. Robinson:

Slash (Oblique)

/

- Use a slash between terms to indicate that either term is acceptable.
Example: Sometimes a nap and/or food can put me in a better mood.

"The successful man will profit from his mistakes and try again in a different way."

USEFUL INFORMATION (ENGLISH)

Comma

,

- Use a comma if a sentence contains a list of people, things, or ideas.
Example: People, things, or ideas.
- Use a comma before conjunctions when the sentences joined by the conjunction both have a subject and a verb,
Example: The class went to Manali, but Mohan stayed home.
- Use a comma to separate dates.
Example: I started school on August 1, 2003.

Hyphen

—

- Use a hyphen to make a compound word
Example: My brother has a new five-gear motorcycle.
- Use a hyphen to Join two or more words serving as a single adjective before a noun
Example: Shekhar is a well-known writer.

Dash

—

- It is longer than the hyphen. It is used to denote more information about a person, things, village, city, etc. and to give the meanings of words.
Example: Mr. Kapoor – father of Sohan.

Parenthesis

()

- Use of parenthesis to enclose explanatory or supplementary material that interrupts the normal sentence structure,
Example: I was born in Dehradun (Uttaranchal) on March 20 (the first day of spring) in 1982. I now realise that my family had more pets (2 dogs, 4 cats and 1 parrot) than an average family.

Quotation Marks

“ ”

- Use quotation marks before and after direct quotes.
Example: I sauntered over to the man in overalls and said, “Hey mister, nice hat!”

Semicolon

;

- Use a semicolon between main clauses not linked by a co-ordinating conjunction (and, but, for, or, nor, so, yet).
Example: Listen carefully; the story gets better.
- Use a semicolon to separate a series of items which themselves contain commas.
Example: The departmental store sells clothes, toys, groceries, electronic items; etc. under one roof.

End Punctuation

. ? !

- Every sentence must have punctuation at the end. There are three marks that can be used at the end of a sentence. a full stop, a question mark, an exclamation mark.
Examples:
Wow!”

"Action is the real measure of intelligence."

How to solve a Science Problem

Step 1 : Understand the problem

The first step is to read the problem carefully.

Ask yourself these questions:

What is the unknown?

What are the given quantities?

What are the given conditions?

For many problems it is useful to draw a diagram

Identify the given and unknown quantities in the diagram. Make sure to introduce suitable notation.

Step 2 : Generate a plan

Ask yourself the question. "How can I relate the given to the unknown?"

These steps may help:

Look for patterns

Use analogy

Introduce something extra

Take cases

Work backward

Establish subgoals

Step 3 : Execute the plan

In carrying out the plan be sure to check that each step makes sense and write out the details.

Step 4 : Check your work

Review your work and check for errors. Try to think of a more efficient solution. Familiarise yourself with the method of solution so that you can develop your 'toolbox'.
